BED ELEVATING INSERT

- ⊕ Doctor recommended night time relief for:
 - Acid Reflux / GERD
 - Hiatal Hernia
 - Heartburn
 - Asthma
 - Vertigo
 - Ulcers
 - Emphysema

- ⊕ Safely elevates mattress and box spring with 2", 4", or 6" elevation options.

- ⊕ Offers proper support to the mattress and box spring as recommended by major bedding manufacturers, including a center leg for Full and Queen size beds.

- ⊕ Allows the headboard to sit parallel to the wall and will not put stress on headboard and footboard connections.

- ⊕ Designed to fit into most complete beds or hollywood frames. The Beds Up insert adjusts to fit Twin, Full or Queen size beds. Two inserts are used for King size beds.

- ⊕ Easy set-up and installation.

Simple, Effective Relief

Sleep better with your head elevated

Millions of people of all ages suffer from ailments that can be relieved by elevating the head of their mattress and box spring. Designed based on doctor recommendations, the Beds Up insert safely and securely elevates the head of the mattress and box spring, 2", 4", or 6" to allow for a more restful sleep. This eliminates the need for foam wedges, extra pillows, bricks or blocks and allows you to sleep directly on your mattress.

ELEVATION
OPTIONS

6"
4"
2"

When your doctor says
Heads Up... Do it with the
Beds Up[®] Insert.
